London-wide LETS Network: RECORD OF ACCOUNT

What are L.E.T.S.?

A **L**ocal **E**xchange **T**rading **S**cheme (LETS) is an agreement within a group to exchange goods and services, not as one-to-one bartering but with a shared system of credits and debits. This is a way for people who may be short of £ to help each other, learn new skills, eat local, recycle resources, and build community. There are groups all over the UK. LETS-link London connects up groups in London. When you join the London-wide scheme, you get "links" in return.

[_] Please put me in touch with my local LETS group/s.
[_] I would like to set up an account with LETSlink London and enclose a subscription of **£10** as an individual or **£25** as an organisation**.**
[_] I am short of time to trade but would like to donate £__ in exchange.
[_] I am short of sterling and am willing to earn my subscription first.
[_] I want to help run a group for my own project or neighbourhood.

Name.....
Occupation/Organisation.....
.....
Address.....
.....
Village (/Tube/Station).....
Borough/Town.....
City/County.....Postcode.....
Tel.....
Email.....

Please list overleaf the goods and/or services you **OFFER** or **WANT** from the LETS scheme. If you have any queries on this contact us on **020-7607-7852.**

NB further detailed joining information will be sent.

To tell us more about yourself, or to introduce us to your group please enclose additional information or write overleaf and send this slip to:
LETSLINK LONDON, 12 Southcote Road, London N19 5BJ

Lets play LETS

You can use this card to try out LETS within a workshop or meeting and/or to start keeping a record of or real person-to-person trading - as long as all the participants send their completed cards into LETSlink London. Currency can be HOURS or equivalent to sterling - choose your own name.

Keep a record of *both* sides of the transaction by signing each other's cards, and count everything, including any web- or cheque-based transactions or vouchers to keep a true record of your account. By adding the "to" & "from" columns and subtracting these totals you can calculate your balance + or -. The balances of all accounts add up to zero.

You can trade also trade online within London-wide LETS, trading in links, and when you are ready you can have your own web-based system set up for you.

For more details about LETS, contact **LETSlink London:**
12 Southcote Rd, London N19 5BJ
